ALL-IN-ONE: robotic automation of bagging and palletizing.

PAYPER is one of Europe's leading manufacturers of complete bagging lines. PAYPER offers a wide range of lines, to suit the requirements of small, medium and large production operations.

The ALL-IN-ONE robot is an all-in-one solution: it picks up the empty valve bag from the magazine, presents it to the filling spout and lastly, palletizes the filled bag.

THE ALL-IN-ONE ACHIEVES
SPEEDS OF

300

BAGS/HOUR

IDEAL FOR SMALL SPACES

OPTIMAL PALLET FINISHES

AUTOMATION OF THE
ENTIRE PROCESS

EASY ACCESS AND
MAINTENANCE

OPTIONS

COMPLETELY AIRTIGHT SEAL

The ultrasonic valve sealing system means the bag can be hermetically sealed to **prevent product loss** and guarantee **maximum protection**.

AUTOMATIC EMPTY PALLET PLACEMENT

For even greater automation, the installation can be fitted with the **automatic pallet placement system**.

SPECIFIC CONFIGURATIONS

PAYPER has specific configurations for bagging products of a **corrosive, abrasive or explosive nature**.

AVOID BREAKAGES AND MOISTURE

For greater automation, the robot can place a **cardboard or plastic sheet** on an empty pallet.
