

Automatic Stretch Hooding

WATCH VIDEO

Stretch Hood System: faster wrapping speeds, total load protection and top-quality finish.

PAYPER is one of Europe's foremost manufacturers of comprehensive bagging lines, and the fully automatic Stretch Hooder seamlessly integrates into PAYPER's end-of-line solutions.

After the bags are filled and palletised, the Stretch Hooder enhances load stability and provides optimal protection by applying tubular film for stretching and adaptation. The outcome is a finalised pallet with impeccable shielding against dust, UV rays, and humidity, all set for demanding handling like transportation and storage.

THE STRETCH HOODER ACHIEVES SPEEDS OF UP TO

120

PALLETS/HOUR

ENHANCED PALLET STABILITY

PREMIUM FINISH FOR THE PALLETS

ECONOMICAL PACKAGING COSTS

SIMPLE MAINTENANCE

OPTIONS

EXTENDED AUTONOMY KIT

Increase the Stretch Hooder's operational time by fitting up to 3 reels of tubular film to maintain production continuity.

HIGH PRODUCTIVITY KIT

2 options to increase the production:

- Kit with fast welding bar and high-speed motors.
- Kit for fast successive hood preparation.

TECHNICAL SPECIFICATIONS

Max output (pallets/h)

120

Installed power (kW)

11,6

Air consumption (NL/min)

50 (at 60 pallets/h)

Electricity

380V/three-phase + PE/50Hz*

Standard measurements (L x W x H)

5,400 x 6,500 x 4,900 mm / 213 x 256 x 193 in

PALLET SPECIFICATIONS

Maximum pallet height (pallet included)

400- 2500 mm / 15.8 – 98.4 in*

Maximum weight (pallet included)

2,000 kg / 4,409 lb*

Maximum measurements (length x width)

1,350 x 1,250 mm / 53 x 50 in*

FILM SPECIFICATIONS

Film Reels (Qty.)

1,2 or 3

Film thickness

60 – 130 µm / 2.4 - 5 mils

Type of film

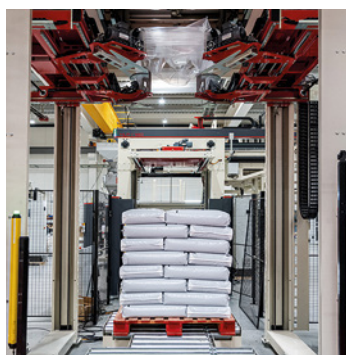

Standard / Premium / Special Films

*Customizable to other requirements.

STRETCH HOODING SEQUENCE

1 Bag Formation

2 Cutting and Welding

3 Stretching

4 Hooding

5 Total Protection

The technical specifications may vary depending on the characteristics of the product, the bags, the pallet, the film, etc.
